INSPIRATION

灵感

L'eleganza della forma e la forza della materia.

Ispirata alla visione rigorosa e innovativa di Le Corbusier, maestro dell'architettura moderna, la serie interpreta la sua filosofia di equilibrio tra forma e funzione. Progettata per chi cerca superfici dal carattere essenziale e sofisticato, questa collezione unisce resistenza tecnica ed estetica pulita, ispirata alle superfici urbane e ai materiali industriali amati dall'architetto.

ENGINEER STONE trasforma gli spazi con un design sobrio e lineare, capace di dialogare con l'ambiente costruito in modo elegante e senza tempo. Un omaggio contemporaneo alla purezza e alla forza dell'ingegneria architettonica.
